

A dark blue 2025 Hyundai Tucson is shown driving on a two-lane asphalt road that curves through a lush, green forest. The car is in motion, with a slight blur on the background trees and foliage, suggesting speed. The road has a double yellow line in the center. The sky is clear and blue. The car's design features a prominent grille with the Hyundai logo, and its headlights are on. The overall scene conveys a sense of adventure and freedom.

2025

The new

Column-type Shift by Wire (SBW)

* Not available for Low spec.

Overtake the ordinary with TUCSON.

Packaged with an exclusive design, the new TUCSON awaits those who desire that extra touch of sportiness.

e-Comfort Drive

When passing speed bumps, this hybrid technology manages the motor to reduce vehicle pitch motion and provide a smooth ride.

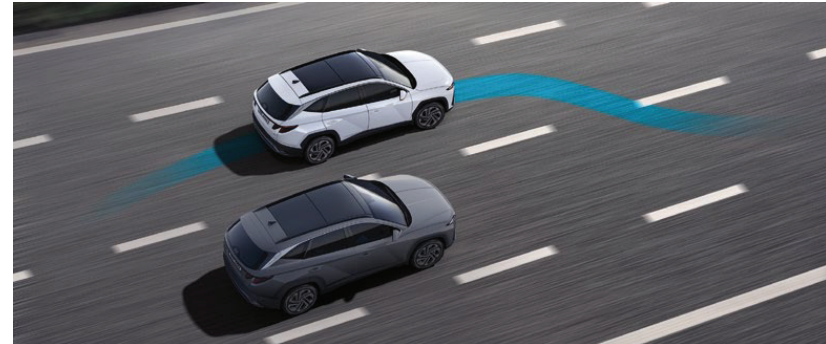

e-Dynamic Drive

When the vehicle approaches a turn, the hybrid system regulates the vehicle's movement to execute torque vectoring while simultaneously maintaining the ideal level of tire grip for dynamic handling performance.

When accelerating, the hybrid system controls the vehicle's motion such that the driver experiences less shaking and more linear acceleration.

During a lane change, this function provides a quick yaw response and improved cornering stability.

Performance

The new Tucson N-Line is equipped with next generation all-wheel drive powertrain, ensuring top-tier performance and the ultimate fuel efficiency.

	Engine			Electric Motor		
Smartstream Gasoline 1.6 T-GDI Hybrid Engine	160	Maximum Power PS/ 5,500 rpm	27.0	Maximum Torque kgf·m/1,500~4,500 rpm	47.7	Maximum Power kW
					264	Maximum Torque Nm

4WD HTRAC* / Terrain Mode (Sand, Mud, Snow)

TUCSON AWD provides optimal driving performance through actively distributing driving force to the front and rear wheels according to various driving situations.

Hybrid Exclusive Features
